

# 1997 Status of the Nation's Surface Transportation System

Report to Congress

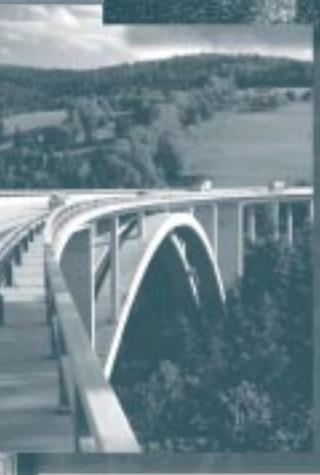

U.S. Department of Transportation

Federal Highway Administration

Federal Transit Administration

# Condition and Performance

1997 Status of the Nation's Surface Transportation System

# Condition and Performance

U.S. Department of Transportation  
Federal Highway Administration  
Federal Transit Administration

**Report to Congress**

## Acknowledgments

This report was prepared by the Offices of Policy Development of the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Harry Caldwell, Chief, Highway Needs and Investment, FHWA; and Richard Steinmann, Director, Office of Policy Development, FTA, are responsible for the overall report. Clifford Comeau prepared the highway and bridge condition and investment analyses; Ross Crichton prepared the highway finance section; and Long Nguyen prepared the systems characteristics section. Jackie McGarry provided project management. Matthew Welbes provided and coordinated all FTA contributions. The Department is indebted to M. J. Fiocco, Office of Intermodalism, Office of the Secretary of Transportation, for the freight section. Please contact these individuals directly to obtain further information about the report and its contents. Finally, the report authors are especially grateful to the FHWA Office of Highway Information Management, the State Departments of Transportation, the public transit agencies, and the Metropolitan Planning Organizations, without which the report would not have been possible. These organizations provide consistent and credible data that can be used to reliably track system performance and support sound futures analysis. Without their vigilance and professional commitment, this executive decision support capability would be lost.

# CONTENTS

## ACKNOWLEDGMENTS

<b>SECTION 1: Introduction .....</b>	<b>1</b>
Report Purpose .....	2
Report Changes .....	2
Data and Methodological Improvements .....	2
Report Format .....	3
Future Report Improvements .....	3
<b>EXECUTIVE SUMMARY .....</b>	<b>5</b>
<b>SECTION 2: Highlights .....</b>	<b>7</b>
Highway and Bridge System and Usage Characteristics.....	7
Transit System and Usage Characteristics .....	7
Highway Conditions and Performance .....	8
Transit Conditions and Performance .....	8
Highway Finance .....	9
Transit Finance .....	10
Highway and Bridge Investment Requirements .....	10
Transit Investment Requirements .....	11
National Highway System .....	11
<b>SECTION 3: Questions and Answers .....</b>	<b>13</b>
System Characteristics .....	13
Highway and Bridge System Characteristics .....	13
Transit System Characteristics .....	19
Conditions and Performance .....	21
Highway Operational Performance and Safety .....	22
Highway Conditions .....	26

Bridge Conditions .....	28
Transit Performance .....	30
Transit Conditions .....	32
Finance .....	39
Highway Finance .....	40
Transit Finance .....	48
Investment Requirements .....	52
Highway and Bridge Investment Requirements .....	53
Highway Economic Requirements System (HERS) .....	58
Bridge Investment Requirements .....	64
Highway Investment Requirements Versus Highway Capital Outlay .....	65
Transit Investment Requirements .....	69
Transit Economic Requirements Model (TERM) .....	69
Cost to Maintain Transit Conditions and Performance .....	73
Cost to Improve Transit Conditions and Performance .....	74
Combining Highway and Transit Investment Requirements .....	77
National Highway System (NHS) .....	78
<b>SECTION 4: U.S. Freight: Economy in Motion .....</b>	<b>81</b>
Introduction .....	81
Preface .....	81
Overview .....	81
Motor Carriers .....	83
Railroads .....	85
Domestic and International Water Carriers and Ports .....	87
Intermodal .....	89
Third Parties and Warehousing .....	91
Air Cargo .....	92
Pipelines .....	93
Forces of Change .....	93
<b>Contacts for Additional Information .....</b>	<b>96</b>
